Mayor of Lexington Resigns Position.

On account of his being the Democratic candidate for State Senator, Mayor Thomas A. Combs resigned the office of Mayor at a special session of the City Council Monday night, November 4, and Dr. R. B. Waddy, president of the Board of Aldermen, was elected to serve until January 1, when the Mayor who was elected will take his seat.

After the adjournment the late Mayor was called into the Council chamber, where Wallace Muir, on behalf of the members of the Council, presented Mr. Combs with a handsome diamond stud as expression of their regret at parting from him. Mr. Combs said: "To-night I have returned to you the commission you gave me four years ago. As I give it back I can say, with Almighty God as my witness, that despite the charges and insinuations made, there has never been a stained dollar gone through my hands. There has never been a dollar that any man could say was tainted passed into my administration." Mayor Combs was elected Senator.

Wireless to Ireland and Return in Five Minutes.

Gloucester, C. B., Oct. 23.—At a public demonstration given at the Marconi wireless telegraph station today, a message was sent from here to Clifden, Ireland, and a reply was received in five minutes. Independent persons were stationed at both ends and the accuracy of the test were confirmed by cable. Marconi states that the local station is transmitting about 3,000 words a day to Ireland.

Many Dry Counties in Illinois.

The Anti-Saloon League made tremendous gains throughout Southern Illinois. Ten counties have gone overwhelmingly dry and no wet county is reported, with the exception of a few precincts.

Kentucky Compared With Other States.

The following dispassionate comparison of Kentucky with other Southern States, which was recently made in an article on "Educational Progress of the South," in *School Science and Mathematics* of Chicago, is of interest to all Kentuckians:

"The splendid educational progress of the Southern States during the last few years has never been equaled by any other people in the history of mankind, and is an index to the enthusiastic interest which has been taken in being aroused among the people of this region in all matters pertaining to thoroughness of education and the elevation of intellectual life and ideals."

It is most encouraging to know that the improvement has begun at the foundation of our educational system, with the public schools, and that it forms therefore a permanent basis from which to build. New school houses have been erected, school terms have been lengthened, laws governing child labor and compelling attendance in school have been enacted, better training for teachers has been provided in State normal schools, and new sources of revenue have been opened up to supply funds to carry the work to an immediately successful issue.

This elevation of the character of the work done in the public schools must naturally be felt in the high schools, which are being multiplied in practically every Southern State. A higher grade of work can be established and maintained. It is possible therefore to strengthen the college curriculum and increase the efficiency of every higher institution of learning in proportion as the character of the work in each unit of the system is elevated.

So far Kentucky has had but a very small part in this forward movement, as compared with the splendid achievements of the Carolinas, Alabama, Georgia, Mississippi and Texas. Nevertheless, some things have been done to improve conditions—the length of the school term has been increased from five to six months; State normal schools have been established at Richmond and at Bowling Green, Ky.; school improvement leagues have been organized, and most important of all perhaps, the conditions now obtaining in the State are being investigated and the truth made known to every citizen of the Commonwealth.

Much of what has been done we owe directly to the efforts of the enlightened women of Kentucky. It is hoped that public opinion, which is now more fully aroused, may sweep Kentucky onward into the full current of educational progress, and make it as, in its earlier history, the first, rather than well nigh the last State in the Union in the achievement of truly high standards and ideals of education.

Lack College Spends \$60,000 to Enable It to Have Its Team in Proper Shape.

The annual Harvard-Yale football game puts \$1,000,000 into circulation, says the Boston Herald. The two university football associations alone spend about \$60,000 each in order to enable their eleven to clash with any degree of mutual confidence.

In New York City the Tammany candidates were victorious over the Independence League nominees by large majorities.

SO SOOTHING

Its Influence Has Been Felt By So Many Mt. Sterling Readers.

The soothing influence of relief after suffering from itching piles.

From Eczema or any itchininess of the skin.

Makes one feel grateful to the remedy.

Don's Ointment has soothed hundreds.

Here's what one Mt. Sterling reader says:

T. A. Garrison, farmer, living one mile west from town on the Grassy Lick pike, says: "When I state that Don's Ointment is the best remedy for healing and allaying irritation that I ever came across I know what I am talking about and I base my opinion on the following: For a number of weeks I was greatly troubled with a bad sore on the back of one of my hands. It was caused from a bruise and so painful was it at times that I could scarcely use my hand. In spite of all I could do, and the use of numerous salves, ointments and everything that I could hear of, the irritation only became worse and kept gradually spreading. Don's Ointment was brought to my attention and I procured a box at F. C. Duerson's drug store. I had but little faith in it, but after one or two applications I noticed the inflammation being reduced and it was only a short time before the trouble was entirely relieved."

Plenty more proof like this from Mt. Sterling readers. Call at F. C. Duerson's drug store and ask what customers report. For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Don's—and take no other. 17-4t

STATE RAPIDLY GOING DRY.

Probable That Prohibition Law Will Be Adopted.

With the adoption of absolute prohibition in three counties in two days, Alabama has 41 out of 67 counties that will have cut out the legal sale of liquors after January. As no county has failed to adopt the anti-liquor policy by overwhelming majority, it is safe to presume that nine more in which the elections are arranged for will go the same way, leaving only seven that allow the sale in any way. More than half this number restrict the sale to one or two towns by dispensaries. There are only four counties that have not gotten up the agitation, all small. Four cannot be reached by the local option law, as they have dispensary rights for two years.

Timber Supply Nearing the End, BUNCH OF BANANAS IN SUPREME COURT.

Highest Tribunal Sustains \$1.75 Judgment.

Originating in a Magistrate's court in Chesterfield county, S. C., and involving a dispute over a claim for \$1.75, the case of the Seaboard Air Line Railway Company vs. Segers Brothers found its way through the State Circuit and Supreme Courts into the Supreme Court of the United States and was there decided in favor of Segers. The money was demanded on account of damage done to a bunch of bananas, shipped from Colombia, S. C., to Mexico, S. C., in 1903. In accordance with the law a Magistrate's court gave judgment for the bill, with a penalty of \$50 for failure to pay within forty days. The State Circuit Court reversed this verdict on the ground that the statute was unconstitutional. The State Supreme Court reversed the Circuit Court. Justice Brewer, in his opinion, sustained the State Supreme Court.

BY REQUEST

Recipe is Easily Prepared at Small Cost, and Many Swear by it.

Mix the following by shaking well in a bottle, and take in tea spoonful doses after meals and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Karger, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist is the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggists.

The mixture is said to cleanse and strengthen the clogged and inactive kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds, if taken before the stage of Bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

The *Scranton*, (Pa.) Times was first to print this remarkable prescription, in October of 1906, since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburgh and other cities have made many announcements of it to their readers.

Johnson Wins Mayoralty.

Mayor Tom L. Johnson, Democrat, was re-elected for the fourth time as Mayor of Cleveland, O., in a hard-fought battle, in which the Republican ticket was headed by Congressman Theodore E. Burton, chairman of the House Committee on Rivers and Harbors.

John J. Craig, Republican, was elected Mayor of Covington.

KENTUCKY'S NEXT GOVERNOR.

HON. AUGUSTUS E. WILLSON.

Augustus E. Willson, of Louisville, Ky., has been elected Governor. We are pleased to present to the readers of the Advocate the picture of our Governor-elect with a brief sketch of his life.

He was born of New England parentage at Maysville, Ky., October 13, 1846, hence is 61 years of age. His father, Hiram Willson, died in 1859 and an older brother soon after. Augustus graduated at Harvard College in 1869. In 1871 he left his brother and younger sister at Boston, Mass., and came to Louisville. Here he met John M. Harlan and under him began the study of law. In 1874 he became a partner with Mr. Harlan and thus continued until Mr. Harlan was appointed to the Supreme Court in 1888.

For 27 years until last June he continued to occupy the old Harlan office. He served one year as Chief Clerk in the office of Treasurer of the United States under Ben Bristow. In 1877 he was married to Miss Mary Elizabeth Eckst, daughter of Deputy Quarter Master Elkin of the United States Army. Ex-Gov. Bradley on Saturday said of him:

Mrs. Willson is a very highly educated and accomplished woman, blessed with a large stock of common sense, great mentality, high courage and deep-seated religious sentiment. She occupies one of the highest and most deservedly esteemed positions in Louisville society, and will make one of the best mistresses the Governor's mansion has ever had. She is a Presbyterian.

In his political experience he has constantly met defeat by an anticipated Democratic majority. In 1876 he was defeated for the State Senate; in 1884 he ran for Congress but was defeated by Albert Willis; for the second time he was defeated for Congress in 1886. After the election of W. O. Bradley as Governor or in 1895 Mr. Willson was a candidate for United States Senator but failed. He then withdrew from local politics, but was interested in State and National affairs. In 1903 he was brought forward for the Governorship but owing to factional differences lost the nomination and Mr. Beckham became the standard bearer. In 1907 he was easily the nominee for Governor and as we all know "got there" by a majority approximating 18,000.

We have heard him highly complimented as a lawyer, campaigner and citizen, honorable, clean, strictly sober. We welcome him as our Governor-elect who will assume the direction of affairs on December 10. We hope that he will right the wrongs of which he has often spoken in the campaign and that his administration will mark a bright era in Kentucky history.

SAVED BY BROTHER-IN-LAW.

Nervous Man Escaped Ordeal That He Dreaded.

Mr. B. and his brother-in-law are both members of a certain Revere church in a city where the weekly prayer meeting forms an important feature. Mr. B., while regular in his attendance at the church service on Sunday, has seldom been present at the prayer meeting, through fear, but, owing to the prevalent custom, he may be called upon either to pray or "give testimony." He is a bashful man, and such an ordeal has extreme terror for him.

But one evening recently he yielded to his brother-in-law's persuasion and formed one of the congregation at the midweek service.

After two or three others had been called upon and responded, the searching eye of the pastor lighted upon Mr. B., and he was called upon to "give testimony," apparently, that public recognition would be an encouragement to the infrequent visitor, he announced: "And now Brother B. will please lead us in prayer."

The unhappy victim was thunder-struck. Exactly what he had always feared had happened to him. He was paralyzed with fright, and he knew that even should he open his lips he would not be able to utter a sound.

But, as the pastor looked at him, the congregation had already devoutly bowed their heads, waiting for him to begin. The delay had become noticeable, and the pastor, who was fairly paralyzed with fright, and he knew that even should he open his lips he would not be able to utter a sound.

"I have come to the conclusion," said the weary pilgrim, who was in a shocking humor, "that this world would vary along some how if they had their senses, though I ain't never had no use for 'em."

The monks of Saint Bernard kept a lot of big dogs once in a while, and the place in honor of 'th' beasts. An the monks would send them out on bad nights 'n' try to lose them, but they never ain't very long till some one else sticks 'em for a thoroughgoing tour with a pedigree made on 'th' spot of 'th' moment.

THE CUSTOM OF HARAKIRI.

Said to Be Practiced Only by Descendants of Old Nobles of Japan.

The custom of harakiri is a thing rather confined to the samurai class and the helmin, the commoners, are strangers to it, writes Mr. Haruki in the Atlantic, a Japanese magazine published in New York. It thrived in the days of feudalism, when the lives of the samurai were at the disposal of their masters, lords and rulers.

The samurai youths were taught to commit harakiri rather than submit to the disgrace of decapitation.

This harakiri became an inevitable hereditary propensity of the samurai class, from which it was not an easy affair to free them after the advent of the western civilization awakened the benighted land of the Rising Sun.

In this enlightened age of Meiji, however, this practice has been going out of fashion. Yet it is amazing to learn that it has again come into use in the war with Russia.

Last year Prof. Ukida of Waseda University of Tokyo, who is a graduate of Yale, had been arrested in an educational gathering held in Tokyo, in which he referred to the practice of harakiri. He said in part:

"A soldier dies in a battlefield for the sake of duty, not for the sake of personal honor. He should not commit harakiri just because he has no means of defense against his enemy. Should he be taken prisoner by the enemy he will do so to console himself with the idea that he is sent to the enemy's camp as a student, to be of further service in future to his country."

THINKS WHILE HE WORKS.

One Man Who Saves Money for the Firm.

There once was a man who did not do things. He was running a certain section of a certain large firm's business, and people began to talk of him. "What's the matter with that fellow?" said they. "Do you notice how he does nothing? All he does all day is—nothing, or, not much, or at events, how does he manage to hang on?"

The other fellow made reply to the effect that "He does not hang on. He's anchored here. If he wasn't, he'd be let out. But he'll never get any further up. Watch him."

And everybody watched.

One day this certain firm happened to have a certain something on its hands that stirred everybody up. It was a big contract, and there was something about the wording, so the firm had to win a big lawsuit or lose a lot of money. And all the people in the firm, everybody who had things to do, began to run around and say: "What are we going to do? What are we going to do?"

And the man who did not do things sat there and looked on.

Finally everybody had turned in their suggestions and the firm was going to begin to fight the case, for none of the suggestions suggested anything else. And then the man who did not do things spoke.

"Suppose I go over and see the other firm and try to work out a compromise," said he. "We'll both lose money if it goes into the courts. They'll lose, we'll lose. Suppose we see if we can't make them see it in the same light."

The head of the firm threw up his hands and collapsed.

"Good heavens," he gasped, "why didn't somebody think of that before?"

And the man who did things made reply: "I've been too busy planning the fight to have time to think about it."

And the head turned to the one man and said: "How in the name of all that is profitable did you happen to have such an inspiration?"

And the man laughed.

"That's no inspiration," he said. "That's common sense. I simply have sat back here—not doing things—thinking. And I know we can square it."

And they did.

Moral: Don't do things—all the time. Think a little.

NEWSPAPERS ONLY

Will Be Used by Newcastle, Indiana, Business Men in the Future For Their Advertising.

The Retail Merchants' Association of Newcastle, Ind., has placed the ban on all advertising schemes, and will have nothing to do with programs, so-called business directories or other schemes devised to separate a merchant from his cash. Newspaper advertising is recognized as the only profitable publicity method and will be strictly adhered to in the future. This decision was reached after one year's investigation of results obtained from various forms of advertising.

A committee was appointed by the Merchants' League who kept actual figures on the business done by the merchants and traced to various forms of advertising. The only form of advertising showing actual benefits was traced to legitimate newspapers. Special bonus editions were condemned by the committee and merchants were urged to refrain from using them. They are usually the products of solicitors traveling from city to city interesting a certain class of newspapers in their schemes and taking a per cent. of the profits for their share in the work, spending no money with the merchants who advertised. The Newcastle Merchants' League recommend that their merchants use only the bona fide newspapers published regularly either daily, Sunday or weekly.

Woodman's Ax Has Left Little Good Timber in Eastern Kentucky.

The first season's field work in the co-operative investigation of the forest resources of Kentucky by the United States Forest Service and the State Board of Agriculture has just been completed and the experts have returned to Washington.

Good progress was made in the study during the past summer and all the territory drained by the Big Sandy and Little Sandy rivers and Tygart's creek has been covered. This area includes the following counties: Pike, Letcher, Knott, Floyd, Martin, Johnson, Lawrence, Boyd, Greenup, Carter and Elliott. The work will be taken up again next spring and completed so far as the funds available will permit. The expense is borne jointly by the Government and the State, each appropriating \$2,000.

The object of the study has been to determine the present timber supply, the rate of consumption and other facts which may serve as a basis for suggestions and recommendations to be embodied in the report which is to be submitted to the Kentucky Legislature.

The investigation has shown that within reasonable distance of railroad and floating streams there is very little good timber left, and yellow poplar is getting scarce all through the region.

The new Democratic Governor of Mississippi is a "dyed-in-the-wool" prohibitionist.

Money in Small Investments.

The man who invented the common and small shoe sole realized \$2,500,000 from that alone. The man who obtained the first patent on the umbrella realized \$2,000,000, and different umbrellas patentees have brought \$10,000,000 altogether. The inventor of the metal heelplate has received \$1,000,000 annually as royalty on his simple invention.

Errors of Lawmakers.

Some lawmakers have found their way into certain acts of the British parliament. One statute enacted punishment of 14 years' transportation for a certain offense, and upon conviction one-half thereof should go to the king, and the other half to the informer. There then is an act of parliament for the reuniting of Chelmsford prison which stipulated in one clause that the prisoners should be confined in the old prison and the new one was built and in another clause was washed ashore, but the new prison should be constructed out of the material of the old one.

Preparing for the Future.

"So you want more wages?" said the warden of the penitentiary.

"That's what I do, answered the convict. "I talk of punishing the magistrates is getting me more nervous every day. If I've got to learn to cook terrapin and lobster a la Newburg, I want more wages. And while I'm at it, I want to be called a 'chef.'"

A Misconception.

"Your reputation is gone," the capitol grafter was informed.

He brightened up instantly. "Good!" he exclaimed. "Why, do you know, it was my reputation that made me take to jail."

Whistling merrily, he began to state a time-table.

King Island Reclaimed.

King Island between the coasts of Tasmania and the Australian mainland, has always been an arid waste of sand and other, non-arable soil. Some years ago, however, a vessel was wrecked off the island and a number of the sailors' mattresses, stuffed with the yellow-flowered clover, a kind of grass, were washed ashore. A certain quantity of seed was contained among the stuffing and in due course these took root and in the space of a few years covered the sandy surface with rich verdure. Clover and other leguminous plants have the peculiar capacity of fertilizing a waste soil, owing principally to the action of bacteria, thereby enabling the plants to draw nitrogen directly from the atmosphere. King Island, previously a waste area of sand, is now one of the richest grazing districts in the Australian continent.

Not Charlie's Gum.

"Now, Charlie," said the sweet-faced little woman, "before you come into Sunday school, don't you think it would be nice to take your gum out of your mouth?"

"Yesum," but it ain't mine, it's my brother's."

The Size of It.

Daggs (reading the morning paper)—I see that a truck was a trip on the South African mine, and that it is likely the price of diamonds will go up.

Mr. Daggs—What a shame! How do these monopolies affect the poor folks to live?

One Symptom.

"Aw, I tell you, Pettrelville gets more and more metropolitan every day!" triumphantly declared the landlord of the tavern, who was swollen with local pride.

"By-ah!" pessimistically replied the patent-churn man, who happened around every now and again. "I reck on you're right. The streets are dirtier every time I come."—Peach.

Overcame All Obstacles.

At 12 years of age Keir Hardie, the British parliament, could neither read nor write and the only kind of schooling he received was a rough drilling in the elements of reading, which he obtained by studying books and notices in shop windows. Writing and shorthand Mr. Hardie taught himself, practicing the latter on the coal mine with the aid of a white stone blackened with smoke from his pit lamp and used as a tablet upon which he scratched the symbols with a pin. At 23 he left the pits and became secretary of a miners' union and two years later he obtained a position as auditor in local newspaper at Cumnock, the town in which his present home is situated.

Popular Matrod.

Let no man slight the scorn and hate of the people. When it is unjust, it is a wolf, but when it is just, a dragon. Though the tyrant sleet high, does think the people their malice; yet they ought to remember that they have many hands, while he hath one neck only. If, being single, he dares to mock the people, they will to him alone be dangerous in their hate. The sands of Africa, though they be but barren dust and lightness, yet angered by the wind, they bury both the horse and traveler alive. Against the hatred of a multitude there is no fence but what must come by miracle; nor wealth, nor skill, nor bands of armed men can keep them safe that have made themselves the hate of an enraged multitude. It is thunder, lightning, storm and hail to gether.

First Universal Language.

One of the earliest and most confident attempts to establish a universal language on the lines of the modern Esperanto was that of Sir Thomas Gurnahugh, who in 1845 issued his "Introduction to a universal language which for variety of diction in each part of speech surmounteth all the languages of the world." An expectant public was lured to look out for subsequent volumes, but they never arrived. Bishop Wilkins, who flourished about the same period, had his own ideas of a universal language, but they did not materialize. He was an optimist of the first degree, and was firmly convinced that it would be possible to communicate with the moon by means of flying machines.

A PUZZLE FROM LIFE.

Now, the Lady Married One to Two Men—Which? Do You Know?

There was a lady who from her youth up had many suitors; but as the years wore on they gradually fell from their allegiance, until one day she awoke to the fact that of all the many but two remained. This led to some earnest communion with her soul and caused her for the first time seriously to consider the question of marriage.

"I am no longer as young as I was," she remarked to herself, "and although my friends are kind enough to call me charming, their very insistence upon it leads me to believe that I should decide at once which of my two remaining suitors I had better accept."

Then she registered long and spent sleepless nights over the problem, but found it ever more difficult to solve. "Billy," she argued, "is strong and muscular. He will guard me from all rude contact with the world. He will view me as a rare and fragile flower which must be shielded from every rude blast, while my change of temperature. The sun must not shine too strongly upon me nor the wind blow too keenly. He appeals to my feminine sense of dependence and to my love of being loved; but," and she shook her head soberly, "there is no use disguising the fact that his excessive care to me will prove a bore."

"He will always be solicitous to see that I wear my rubbers when it is dangerous to do so. He will insist on deciding for me all the questions of life, whether trivial or important; what books I shall read, what religion I shall adopt and, promptly, what breakfast food I shall eat. Within two years I shall be a pampered nonentity without either a will or an intelligence of my own."

"Now, I must weigh Jack in the balance. He is a dear, lovable fellow, a charming and amusing companion, but with as little sense of responsibility as a kitten. He appeals strongly to my maternal instinct. I feel that he needs my affection and, in a measure, my guidance; but I cannot deceive myself. I shall have to bear the brunt of everything, decide all important questions and grapple with all the problems that would come to us in our mutual experience. He demands of existence sunshine and roses, a song and a jest; but in times of storm and stress he would be as a broken reed. And yet in fair weather he would be a delightful agent with a chance to let my individuality expand and develop, for I should be the head of the house."

Now, the lady married one of those men. Which? Do you know?—Life.

Show Not a Gourmand.

George Bernard Shaw, critic, dramatist and novelist, asserts that he has no more home instinct than a milk can at a railway station. He admits, however, that he has an address at 10 Adolphus terrace, London. "These chambers," he explains, "constitute the real center of my domesticity, because my wife lives there. My official residence, qualifying me as a vestryman, is in Fitzroy square; my mother lives there. I live nowhere." He says that any place that will hold a bed and a writing table is as characteristic of him as any other. At one of the Socialist conferences, when the delegates assembled after lunch, the well-known writer came in, rubbing his hands and giving thanks for the splendid dinner he had just had. Some one asked him what he had for dinner. "Ah!" replied Mr. Shaw, with all the serenity of a well-fed man, "I've had seven bananas!"

Mourning Vagaries.

"Mourning is not what it used to be," said an undertaker. "In fact, I expect to see it go out altogether in the next century or so. Perhaps it is just as well. No young widow, I've heard say, can wear mourning without looking like an adventuress."

"But in the seventeenth century widows not only wore mourning, but their bed curtains were black, and the sheets and pillow cases had a black edging, like stationery. Even their fingerings had a mourning band."

"In Italy the nobles of the Renaissance carried their mourning as far as their knives and forks, which had ebony instead of ivory handles. "Gray cloth superceded black for mourning in the eighteenth century. The fashion lasted about twenty years. Then it died out, as it had sprung up, mysteriously."

The Swan Song.

"The nature fake," said Dr. William J. Long, the nature writer, "is always harmful. A striking instance of this occurred not long since at the zoo. You know the old nature fake who told the swan—how this beautiful bird, silent all its days, burst when cying into the sweetest song? Well, at a zoo one day, a keeper saw a boy steal up behind a swan with a brick in his hand. "Here," said the keeper, "what are you going to do there?" "Ah, lemme alone," snarled the boy. "I want hear him sing!"

Nice of Tom.

"Yes," she said, "I always like to go out with Tom."

"But," her friend replied, "he seems so stupid. He hardly ever says anything."

"I know. Still, I can sit and tell him my troubles by the hour and he never lets me know by word or sign that he is being bored."

RELIGIOUS

A protracted meeting is in progress with the Howard's Mill Baptist Church.

The Ladies Aid Society of Peled Oak Union Church, will give an oyster supper on Saturday evening, November 16, from 6 to 10 p. m. at the residence of Mr. James Crooks. Everybody cordially invited to attend.

Sunday, November 3, 1907, was an important day in the history of the Mt. Sterling Christian Church. It marked the close of the 20th year of consecutive service of Rev. H. D. Clark as our pastor and as a citizen highly respected and honored by this community. Some idea may be had of the ties that bind him to his congregation and to the people of this and surrounding neighborhoods when it is known that during these twenty years he has officiated at the marriage of 257 couples and has conducted alone or in part 589 funeral services. As a student and expounder of the Bible his loyalty and ability are unquestioned; he speaks in no uncertain tones; is a close thinker; he is not a complainer or a fault-finder, but when he assails sin he does so in a way that is both convincing and leads rather than drives. He is a teacher of the men's class in the Bible school and presides at the teachers' meeting. We wish for him other years of service with us.

MARRIAGES

We have the following:

Mr. and Mrs. Jack Crooks will give in marriage their daughters, Dorothea Rose.

Mr. Patrick Henry Clark, on the account of Wednesday, the twentieth of November, has been unable to attend his wedding.

The groom is a native of Mt. Sterling and a fine young man.

MISS PEGGY WATERS.

At the home of Prof. H. M. Gunn, Holt Avenue, November 6, Miss Ida M. Marrs was married to Mr. Richard Arnsperger, the Rev. L. J. Spencer officiating. They are all of Lexington. Miss Marrs is a sister of Mrs. H. M. Gunn. From Asheville, North Carolina, Mr. Arnsperger and wife will be at their home, Lexington, after November 15.

SWAETZ-DOWLES.

On tomorrow, Thursday afternoon, November 14, 1907, at 4:30 o'clock, at the bride's home in Lexington, Mr. Joe D. Swartz, of this city, will be united in marriage to Mrs. Minnie Dowles, Rev. H. D. Clark will perform the ceremony. The bride is a native of Jessamine county, and recently sold her property near Nicholasville and located in Lexington. Mr. Swartz has an extensive acquaintance here. For some years he has been janitor of the Christian Church. He is very accommodating and industrious. He has shown great devotion to the two little brothers for whom he has cared in past years.

TURNER-BOYD.

On Tuesday morning, November 5th, 1907, at 8:30 o'clock, at the residence of Mr. and Mrs. J. W. Thompson, Rev. H. D. Clark officiating, Mr. George B. Turner and Miss Anna Mae Boyd were united in marriage. The wedding was solemnized in the presence of a large number of friends. Mr. Turner and Miss Boyd being among our most popular young people. Presents were numerous and valuable. Accompanied by the groom's mother, Mrs. P. B. Turner, they went to Parkersburg, W. Va., and returning will be at the Daniel boarding house on Maysville street after the 15th. These young people have our best wishes all the way down life's voyage. Their prospects are bright and we hope when the yonder shore has been reached they may realize a world brighter, made so by their efforts, that faith in the life-giving one is a realization of hope, and the plan it, well done, is theirs.

CHENAULT-PREWITT.

On Tuesday afternoon, November 12, 1907, at 1 o'clock, at the home of Mr. and Mrs. Allen Prewitt, on Winchester pike, their daughter, Miss Julia Prewitt, was united in marriage to Mr. Tandy Chenaunt, son of Mrs. Emma Chenaunt. Rev. H. D. Clark officiated. This was a chrysanthemum wedding. The attendants were little Miss Mary Prewitt, daughter of H. R. Prewitt, and Miss Florence Evans, daughter of C. T. Evans, niece of the bride. They were dressed in white and carried flowers in white and yellow. No friends from a distance were present. Immediate relatives of the families witnessed the ceremony. The bride and groom are worthy representatives of two of our county's best families, deservedly popular. They left at once for parts unknown to the writer. On Wednesday of next week a reception will be given them by Mrs. Corbin, of Georgetown, who is a sister of the groom. After another short trip they will go to housekeeping at the groom's farm near our city. Many friends join in best wishes.

DEATHS

HOFFMAN.—Dr. J. A. Hoffman died at his home at Shepherdsville, Ky., on Monday night, November 11, 1907. We learned no particulars. G. W. Anderson and Roger Hoffman, son of Dr. Hoffman, attended the funeral. Dr. Hoffman's first wife was a daughter of Wayne Anderson, deceased, of our city.

TAPP.—Mrs. Geo. F. Tapp, aged 72 years, died at their home on East Main street on Saturday, November 9, 1907. The funeral service was conducted by Rev. H. D. Clark on Sunday afternoon at 2 o'clock, and burial in Macpelian Cemetery. She leaves a husband and 8 children, all grown. The family moved here recently from Winchester, where Mr. Tapp had a grocery.

WHITE.—On Friday morning, Nov. 8, 1907, at his home at Sciotoville, O., Rev. Thos. E. White died of anthrax. His affliction had been such that for about 4 years he had been unable to preach regularly. He was a native of this county and was in his 35th year. The burial was at Portsmouth, O., Sunday. His brother, J. B. White, of our city, accompanied by Mrs. Laura McGowan, Miss Laura Williams and R. C. Gatewood attended the services. Mr. White is survived by a wife. He had many acquaintances here who will regret to hear of his death.

FRENCH.—Rev. J. W. French, aged 67, died suddenly on Sunday morning, November 10, at 9 o'clock, at the home of his son-in-law, Rev. T. W. Watts, at Millersburg, Ky. For a few weeks he had had bronchitis, enlargement took place and developed into a hemorrhage which suddenly killed him. He is a well known Methodist minister of the Kentucky Conference, and a debater of considerable fame. The funeral service was held at Winchester on Monday afternoon, conducted by Rev. W. F. Taylor and other ministers of the Kentucky Conference. He has been twice married. His wife, four sons and a daughter survive him.

ROSS.—Elder B. H. Ross was taken sick Wednesday, October 20 and Thursday morning fell to the floor while walking to the breakfast table. The physician pronounced his condition critical. He suffered much and lingered till about 2:10 o'clock p. m. Friday. He was suffering from organic heart disease for some time. Funeral services were held at the residence on Sunday by Robert M. Campbell, after which the interment was made in the Owensville Cemetery. He was born on a farm near Utica, Mississippi, Oct. 22, 1855. He lived with his parents until his eighteenth year, when he came to attend the Bible College of the Kentucky University, Lexington, to fit himself for the ministry of the Christian Church. He attended college seven years. During one of the summer vacations he came to this county to preach. He then met Miss Julia Jones, daughter of Martin Jones, of the Forge Mill. Their friendship ripened into love and they were married Sept. 1, 1881. Mrs. Ross and their four children survive: James M., city editor of the Lexington Daily Leader; Mrs. Louisa Freedland, wife of John Freedland, of Mt. Sterling; Floyd W. and John C., at home—Owensville Outlook.
